Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I have a tracphone simply because I cannot afford the high prices of cell phones. Further, I do not use the phone for interstate calls and to be in effect, taxed, for a service I do not use is highway robbery! I use the phone strictly for emergency calls within my calling area or at most within my state.

Do not impose the additional charges on everyone - put on those who use the interstate option!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
